To Qualify for the Versatility Certificates the Dog must have points within all three categories (conformation, Performance and Field)

To Qualify for Versatility the Dog MUST have at total of 6 points (2 within each category)

To Qualify for Versatility Excellent the dog MUST have 10 points (minimum of 2 within each category)

IF a dog has multiple titles with in one category the highest title will count for the points (ie.....for a dog with a MH and a WCX, the MH would be used as the point value is higher) You cannot combine titles within one category to make up the points.
